## Facts about Fluoride in Florence County

- Most Florence County families who have their own wells have very little fluoride in their water.
- Children drinking non-fluoridated water can protect their teeth against decay by taking a daily dietary fluoride supplement.
- Children who get the recommended amounts of fluoride have a significant reduction in the amount of cavities versus those children who do not get the recommended amount

## Dietary Fluoride Supplement Program

Florence County Health Department can provide your child with dietary fluoride supplements if your child:

- Lives in Florence County
- Is between the ages of 6 months to 16 years
- Does not have enough fluoride in drinking water

## Water Test Requirements

Water test kits are available at the health department free of charge!

Water test results will be mailed to you within approximately two weeks.

If your water is low in fluoride (less than 0.7 ppm) a dietary supplement is recommended.

***FREE supplements! Call us at 715-528-4837 for more information.***
