Florence County Community Health Assessment and Community Health Improvement Plans Are Now Accessible to the Public

[Florence, WI] –The Florence County Health Department is pleased to announce that the 2020-2025 Community Health Assessment and Community Health Improvement Plan are now available for public viewing. In the state of Wisconsin, local health departments are required to regularly and systematically collect, assemble, analyze, and make available information on the health of their community. These reports were completed collaboratively with community partners and feedback from the community it serves.

The Community Health Assessment is a 61-page report that describes what a Community Health Assessment and Community Health Improvement Plan is, why it is important, who participated in providing input into the report, how it is organized, and various data points about our community. The Community Health Improvement Plan is a 24-page document that provides information regarding the community's top health priorities and outlines the plan with its goals and ways to reach those goals. If you would like to view these reports or you would like more information about these reports, please see the following ways to access this information:

- Posted on the Official Florence County Government website at www.florencecountywi.com/ (to access reports, click on the Department tab, and then click on the Health link, from there you would click on Community Health on the left hand side of the screen. Once on the community health page you will find both reports listed. Click on the report that you wish to view).
- Reports are available, in hard copy, at the Health Department which is located at the Florence County Courthouse.
- Available via e-mail, per request.
- If you wish to receive either of these documents any other way, please contact the Health Department at 715-528-4837.

The Florence County Health Department values comments and contributions from its community members. Please contact the Health Department at 715-528-4837 with any questions or concerns.
