Scott Wolf said he is working with the Sheriff regarding the panic buttons in the Courthouse. They're an old system that ran on copper phone wiring, and we're not using copper wiring anymore. Also the building generator is down at this time, but expected to be up and running this week yet. Sheriff Dan said he is had Van Ert electric take a look at the panic button situation and he will try to get a quote on a new system that is more up to date for the courthouse, highway department and Forestry. Possibly internet based.

Scott also reported that they finished the repair of the sidewalk outside of the Sheriff's Office. There is a roof leak above the zoning office that needs attention also. Scott will monitor over winter and possibly put some more insulation up there to see if that helps.

The next meeting will be scheduled at a later date.

Motion to adjourn made by Fran M, seconded by Gary S.
